

ESS Feed-in excess solar charger power - not full potential (SVS fix)

Sonntag, 30. Juni 2019 11:34

SVS enabled:

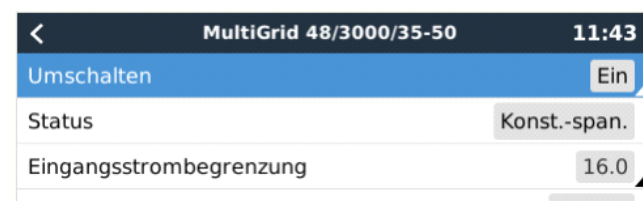

Solar Charger Battery Voltage and Current [258]

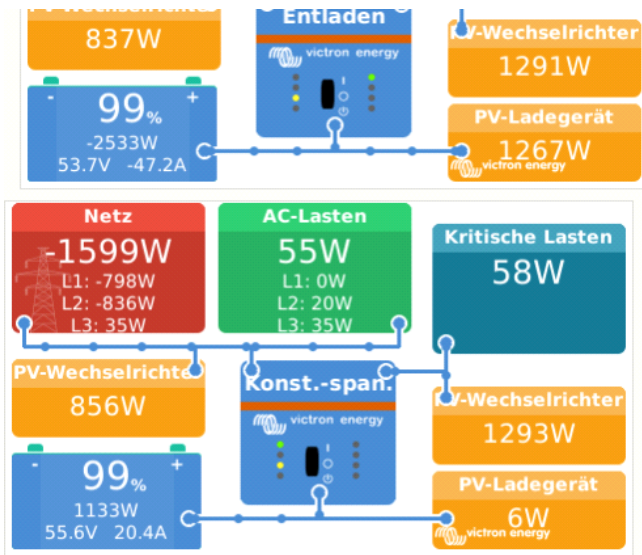

Solar Charger PV Yield [258]

DC Voltage too high for ongrid operation BYD B-Box

Status	Konst.-span.
Eingangsstrombegrenzung	16.0
DC-Spannung	56.19V
