

Parameter	Value 1	Value 2
Highest cell voltage	--	--
Minimum cell temperature	--	--
Maximum cell temperature	--	--
Battery modules	--	--
Nr. of modules blocking charge / discharge	--	--
Installed / Available capacity	--	--

The interface also shows a navigation pad, the time "12:31", and the text "Ruban Remote Console".

With the Canbus cable pulled out it reads correctly
